VIKINGS 5.0

Joining from Sweden is **Philip Wockatz** who is responsible for Open Innovation at the Volvo Group.

He is currently driving open innovation and strategic partnerships to develop and utilise company-wide capabilities to innovate and find new business opportunities.

Philip is also a member of the mobilityXlab Management Team and part of the Venture Cup Sweden jury.

Joining from **Denmark** is **Jane Rygaard**, who is Head of Marketing at Nokia, Mobile Networks. Jane loves expanding the human possibilities of technology, so the world we will live in makes sense. Lately with a focus on digitalization of our society, industries and our Public Safety agencies. This is powered by mobile technologies like 5G as well as Cloud, centrally and edge deployments.

Anders Braekken is a Norwegian consultant living in Barcelona. Throughout his career, he has had the good fortune of working with a diverse portfolio of companies and brands - big and small, local and global, private and public, startups and leaders. Among these are Abu Dhabi Executive Council, Ansur Technologies, Bacardi Global Brands, HP, IBM, Kraft Foods, Martini, and Oracle.

Moderator of panel debate, **Fredrik Syversen** is director of Industry Development at ICT Norway. Entrepreneurship is one of his main work areas and with that supporting the industry in making the best ideas into companies and facilitate growth outside Norway.
